How much money do you give back to her?

How much money is in your envelope?

The Cookie Case Money Game

Your circle is going to go sell a case of cookies. You have a \$10 “float” in your envelope. This money is YOURS and will be used to give change to your customers. After selling an entire case, you will have \$10 extra in your envelope because you started with \$10.

Follow the cards in order. Take turns reading the cards and fill in the boxes on each card.

Follow the instructions, and see how much money you have in your envelope after 6 turns.
